

## Health Benefit Option

Time is of the essence when a serious illness strikes. Waiting on a list for a diagnosis or access to a specialist is unacceptable.

Delays are stressful, potentially life threatening and costly for everyone involved. Accelerate the process, ensure your employees can access over 3,700 experts at the world-renowned Mayo Clinic within days, with an exciting new health benefit option from MyCare.

- No medical qualification
- No deductibles or co-payments
- Simple and easy to administer

Don't Lose An Employee  
To Serious Illness

Ensure they have access to world-renowned Mayo Clinic.

## Health Benefit Option

MyCare Health Benefit Option offers your staff and their family members unprecedented control over their healthcare, when they need it most.

When a staff or a family member is seriously ill and needs a diagnosis, a second opinion, or immediate access to diagnostic or specialist assessments, MyCare ensures they can access world-renowned Mayo Clinic's team of over 3,700 experts within days.

The health benefit option from MyCare is an opportunity to add real value to your benefits program with low fees, and a simple application and administration process.

- Initial diagnosis assistance
- Medical second opinions
- Complex or difficult diagnosis
- Specialist assessments
- Diagnostic scans
- Includes travel expenses

New MyCare HBO members have the option to upgrade to an insurance product called MyCare Advantage. Advantage covers on-site treatment of serious illness directly at Mayo Clinic. But don't wait, new HBO members have only 45 days to add Advantage to their coverage. Learn more at [www.mycare.ca/Adv](http://www.mycare.ca/Adv).

*MyCare is a group benefits and insurance provider offering Canadians access to Mayo Clinic expertise for medical diagnosis, second opinions and treatment.*

MyCare HBO is subject to a pre-existing condition clause except for groups with over 50 eligible members.

**MAYO CLINIC** is a not-for-profit worldwide leader in medical care, specializing in diagnosing and treating difficult cases. Patients from around the world are referred to Mayo Clinic for innovative and effective treatments. Doctors from every medical specialty work together to care for patients, joined by common systems and philosophy: "the needs of the patient come first."
